

JoeyCo is a same-day, scheduled and on-demand delivery solution operating in Canada.

## THE CHALLENGE

The JoeyCo solution leverages a fleet of drivers to provide same-day delivery of goods to consumers in Canada. Early on, JoeyCo understood how important teamwork and communication were in providing a robust and reliable solution. To simplify collaboration across various locations, JoeyCo turned to Google Workspace.

### Benefits

Collaborate in real-time with documents, spreadsheets and slides across your devices

Secure your data and devices

Store and share files in the cloud

## WORKING WITH WOOLPERT

JoeyCo began working with Woolpert as its Google Workspace partner in January 2021. "Our experience has been really good so far. I contact Woolpert when I have any concerns and they are very responsive," expressed JoeyCo Director of Security, Zain Qureshi.

## THE SOLUTION

When JoeyCo began using Google Workspace, the team had 15 members. Today, JoeyCo has over 150 employees in Canada and Pakistan who leverage Google Workspace to stay connected and organized.

Integrating a communication and collaboration tool that was both secure and scalable was important to JoeyCo as its team grew and expanded. JoeyCo Co-Founder and Chief Operations Officer, Ahmed Saeed, stated, "Google Workspace gives us the necessary control to manage employees at scale. With more employees and different cities, it's a centralized place to manage all those things. Getting products into our clients' hands is our number one priority, taking their addresses and converting them into geocode is a crucial piece to our business. We leverage Google Geocoding to help us tackle these challenges and Woolpert's expertise has really helped us streamline this process."

The JoeyCo team uses Gmail and Calendar to efficiently communicate tasks and organize meetings. Using Google Sheets and Docs collaboratively is a cinch thanks to real-time updates in Google Workspace. Google Drive provides a home for all documents and materials so the team can stay organized and quickly find what they need. For instant direct messaging and group discussions, JoeyCo relies on the easy-to-use Google Chat.

With employees located in various cities, countries and time zones, Google Workspace ensures that collaboration and communication on important initiatives never falls short.

*"Collaboration is no. 1, especially the ability to collaborate on documents and work together to complete reports or spreadsheets. Sharing information is a lot easier with Google."*

*-Zain Qureshi, Director of Security, JoeyCo*
